

Booking Form for Shelby's Sidecar Tours

The booking form on the Shelby's Sidecar Tours website does not fulfil requirements. We need a new booking form built by a developer who is familiar with Wix code and who will create a booking form that can be applied to this Wix template. The developer must be able to demonstrate that they have the skills needed to create this form.

Website - www.shelbyssidecartours.com

Please see <http://www.shelbyssidecartours.com/#!/bookings/c1ehw> to see existing Wix Booking Form. this page is not online.

The new booking form must be responsive and be able to work in both the website and on mobile devices.

ARRIVING AT THE BOOKING FORM

Customers arrive at the Booking Form by clicking a BOOK NOW button on these pages:

- CITY TOURS <http://www.shelbyssidecartours.com/#!/pick-up-from-sydney/ods0h>
- MANLY TOURS <http://www.shelbyssidecartours.com/#!/pick-up-from-manly/t9sfj>
- CUSTOM TOURS <http://www.shelbyssidecartours.com/#!/build-your-own/ppaf2>

They have already chosen a tour from either Sydney Tours, Manly Tours or Build Your Own Tours. One of these three graphics as well as the name of the tour they have chosen will be displayed at the top of each page of the Booking Form. We will send you the graphics for the 3 different groups of tours: City Tours, Manly Tours, Build Your Own Tours.

PAGE 1 OF BOOKING FORM - DATE & TIME

This page is based on the equivalent page (Choose Time Page) in Wix Bookings. The sliding calendar at the top works the same way as the sliding calendar in Wix Bookings. The time choice element is also similar to the one in Wix Bookings, but simpler.

The differences in look and function from Wix Bookings on this page are as follows:

DESIGN

- The design is centred
- There is no summary on the right hand side
- The name of the tour which has been selected is displayed at the top under the graphic
- Please follow the supplied design for this page.
- Web fonts used are Lulo Clean for headings and Palatino for text

FUNCTION

- In the TIME section, if the tour chosen lasts one hour, then only 1 hour is blocked out
- If the tour chosen lasts two hours, then 2 hours are blocked out
- If the tour chosen lasts three hours, then 3 hours are blocked out
- If the tour chosen lasts four hours, then 4 hours are blocked out
- If the tour chosen lasts six hours, then 6 hours are blocked out of the time display
- If a customer chooses a time which too late in the day to accommodate their tour, an alert should appear with the following message: "Your tour lasts X hours. The time you have chosen is too late to allow enough time for this tour. Please choose an earlier time."

- The times 6am, 7am and 8am and 6pm, 7pm and 8pm are only available in the Summer months (October to March inclusive). They should not appear as available times from April to September.
- The Tour operators need to be able to make certain times unavailable from time to time and require a management interface to do this. Unavailable times should be "prayed out" with a hover definition which says "Time unavailable".

PAGE 2 OF BOOKING FORM - NUMBER OF PASSENGERS

This is a new page which is essential to calculate the price charged to the customer.

There are three choices to be made in order to calculate the price:

- Number of bikes
- Number of passengers
- Number of picnic hampers

The calculations works as follows:

Each motorbike can carry either one or two passengers. The first passenger is in the sidecar and the second would be a pillion passenger. The first hour for the sidecar passenger is \$175 and then an additional \$100 per hour after that. For the pillion passenger, the first hour is \$50 and then an additional \$25 per hour after that.

PRICING STRUCTURE

	First Passenger	Second Passenger
1 hour tour	AU\$175.00	plus AU\$50.00
2 hour tour	AU\$275.00	plus AU\$75.00
3 hour tour	AU\$375.00	plus AU\$100.00
4 hour tour	AU\$475.00	plus AU\$125.00
6 hour tour	AU\$675.00	plus AU\$175.00

So, for example, a customer might make any of the following choices:

- 2 motorbikes on 1 hour tour with 3 passengers = $2 \times \$175 + 1 \times \$50 = \$400$
- 1 motorbike on 3 hour tour with 2 passengers = $1 \times \$375 + 1 \times \$100 = \$475$
- 4 motorbikes on 2 hour tour with 7 passengers = $4 \times \$275 + 3 \times \$75 = \$1325$
- 3 motorbikes on 4 hour tour with 3 passengers = $3 \times \$475 + 3 \times \$0 = \$1425$

The booking form has to make these calculations dynamically and give a total.

PICNIC HAMPERS

Number of Picnic Hampers required (optional)? This field can be left blank by the customer, or given a value.

(dynamically added to the \$ Total @ \$25 per hamper)

PAGE 3 OF BOOKING FORM - CUSTOMER INFO

This is an information collection page. This info should be sent to the operator together with booking details. Please follow design.

PAGE 4 OF BOOKING FORM -

This is a Summary page. All fields are populated by information previously collected. Please follow the design supplied.

The Pay Now button should be linked to the operator's PayPal account. Details of this account will be supplied at the appropriate time.
